IntegriEXFOLIANT Jojoba Beads

INCI Name: Jojoba Esters

IntegriEXFOLIANT Jojoba Beads are made from 100% Natural Jojoba wax esters and are ideal for shower gels, soaps and body scrubs. These free-flowing, spherical jojoba beads are superior to nut shell, pumice and polyethylene exfoliants because they do not leave micro-lacerations on the skin.

These microscopic cuts can result in premature wrinkles and provide an entrance for bacteria into the skin's surface. Also, IntegriEXFOLIANT Jojoba Beads do not irritate or burn the skin the way AHA/BHA or other acid products can.

IntegriEXFOLIANT Jojoba Beads are available in a wide variety of sizes and colors.

Size and Application

IntegriEXFOLIANT Jojoba Beads 16/20

The newest addition of Jojoba Beads by customer demand, these beads are the largest and are uniform in size. For maximum visual impact, use jojoba beads with colors that contrast with the formulation. Recommended especially for formulations packaged in transparent containers.

IntegriEXFOLIANT Jojoba Beads 16/60

Jojoba Beads 16/60 are the latest beads from Integrity Ingredients Corporation

IntegriEXFOLIANT Jojoba Beads 20/40

Jojoba Beads provide a safe yet aggressive exfoliation while offering great visual impact. In addition, these jojoba beads give remarkable results in products for tougher skin areas such as foot scrubs

IntegriEXFOLIANT Jojoba Beads 28/60

By far the most popular size of jojoba beads, this exfoliating bead applies widely to most body scrubs, shower gels, body polishes and exfoliating face masks.

IntegriEXFOLIANT Jojoba Beads 40/60

The second smallest sized jojoba bead, 40/60 gives light visual impact while providing a fine degree of exfoliation. This size applies best to products for delicate skin such as facial cleansers and lip and cuticle exfoliators.

IntegriEXFOLIANT Jojoba Beads 60/100

The smallest sized jojoba bead is used for light exfoliation, great for sensitive skin and facial products.

IntegriEXFOLIANT Jojoba Beads Soft

Want a 100% natural, oil-free, excellent skin emollient for your formulation that's both pleasing to the eye and touch? Introducing Jojoba Soft Beads which provide this and more... Jojoba Soft Beads are multi-sized with a melting point of 57-59°C. This product, due to its lower melting point provides the added benefit of being absorbed by the skin's top surface layers of the skin. Jojoba Soft Beads, a very gentle skin conditioner gently polishes dull skin cells while remaining in the skins surface layers promoting smooth, well-moisturized skin. Jojoba Soft Beads are available in brilliant white...custom colors available upon request, minimum orders required.

Integrity Ingredients Corporation
