The Fusion of Clean Science with Bio-Active Naturals

Beauty with Integrity *is* Clean Beauty

Sustainability | Ethical Sourcing | Social Responsibility | Transparency

“Advancing the *Beauty with a Conscience* Movement”

At Integrity Ingredients Corporation, the fusion of clean science with nature has been at the center of our product innovation since 2005. Over the last 15 years, we have honed and defined what Clean Beauty represents for our company and our clients. Our corporate mission is to advance the pillars of our corporate structure and the precepts of our products – Sustainability, Ethical Sourcing, Social Responsibility and Transparency.

Today, Integrity Ingredients is taking Clean Beauty to the next level by *Advancing the Beauty with a Conscience Movement 2.0* with two distinct strategic initiatives: 1) To expand our two R&D innovation laboratories to accelerate the continuous development of unique formulas and finished products, and 2) To drive the continuous global commercialization of specific technologies derived from indigenous, socio-economically suppressed communities.

We actively seek natural innovation that features a reduced carbon footprint and proven, sustainable traceability from farm-to-formula and earth-to-product. To date, significant financial investments have been made in needy communities in Alaska, West Africa, Quebec, Canada and Columbia, South America and more.

Clean, safe, optimal beauty is achievable, and we are honored to extend an invitation from our R&D Team to help you to create your next Clean Beauty products. We value green chemistry, clean production and at our core we excel at showcasing our latest innovation and formulas that feature Clean Science fused with our Natural Bio-Actives. We offer safe alternatives for preservatives, emulsifiers, exfoliants, antioxidants, lipids, butters, waxes and enzymes. Our strengths lie in R&D, innovation, concept development and turnkey products and, as a courtesy we offer extended services that include more than 30 years of marketing, market research and regulatory support.

Our goal is to cultivate truthful, transparent and empowering relationships as “Your Innovation Partner”, and to expand your brand portfolio with clean science, natural and customized personal care solutions. We invite you to join us on our journey *to Advance the “Beauty with a Conscience Movement”*.

Clean Beauty Solutions – A Portfolio “Sneak-Peek”

“Natural Ingredient Solutions is our Long-Term Goal . . . Here are several to start the journey.”

Jakabix™ NP 52: A sustainable, 100% natural and robust broad-spectrum preservative system. Anti-microbial, gram-negative, gram positive, virus, yeast and mold resistant.

Pinna Leaf NP™: A globally compliant, inclusive of China, sustainable, 100% natural and robust broad-spectrum preservative system. Anti-microbial, gram-negative, gram positive, virus, yeast and mold resistant.

Rheostyl™ E Series: Powerful emulsification; uniform particle dispersion – ideal for sunscreens, liquid color cosmetics & sensitive skin. Cold process, energy efficient; low shear.

Sun’Alg®: Just one of many of our marine algae in our Gelyma collection. Protects against UVA/UVB light and boosts sunscreen values. Reduces UV-induced redness and prevents sun burn cell formation.

Kahai™ Oil: 100% natural skin renewal Retinol alternative with no side effects. Efficacious, sustainable, anti-aging dry oil; contains natural Retinol and is rich in Vitamins E and F.

MagNUT Sense Oil: 100% natural, virgin oil harvested from the Colombian Caribbean along the Magdalena River banks. Rich in natural Selenium, antioxidants, fatty acids and Vitamin E. Forms an elegant protective film that promotes long term hydration and prevents moisture loss.

Lower North Shore Bioproducts: Wildcrafted berries and plants derived from the pristine ecosystems of Quebec’s sub-arctic region; nutrient rich and high in vitamins, antioxidants and Omega fatty acids.

IntegriLIPID Range: A roster of 50 plus Natural, Botanical and Essential oils. Clean, cold pressed extraction process features low, or “zero” botanical waste.

IntegriBUTTER Range: More than 25 proprietary, exotic, fruit and vegetable butter blends.

IntegriBOTANICAL Range: Consists of many botanical extracts, flours and starches; includes Papain, Bromelain, Arrowroot, Aloe Vera, Tapioca, Wild Yam, Activated Charcoal and more.

IntegriMOIST Range: Vast range of powerful Lactic and Fruit Acid complexes and blends.

IntegriEXFOLIANT Range: Includes traditional Walnut shell and Apricot powder to unique Coffee bean and Cranberry, Raspberry & Blackberry seed exfoliants; as well as natural Jojoba and Sunflower beads. Discover our **Natural Scrub Base** to customize your own innovation.

IntegriWAX Natural Base: A unique, cost-effective, natural wax blend that streamlines skin care product development, as well as lipsticks, eyeliners, lip balms and anhydrous makeup.

IntegriMULSIFIER Natural SSL: Natural, multifunctional emulsifier retains skin moisture and improves sensorial skin-feel. Releases lactic acid to boost the skin's NMF without irritation.

IntegriMULSIFIER Natural CSL: A natural emulsifier designed for (W/O) and (O/W) systems.

LipidTHIX: A natural emulsifier that functions to gel natural oils and emulsify (O/W) systems.

IntegriWAX Range: Polyhydroxystearic Acid, Lauryl laurate and many more.

Protecnica Ingenieria: Emulsifiers such as Glyceryl Monostearate that is RSPO Certified.
