Lipex SheaLiquid™ TR

Recommended applications: all cosmetic applications

INCI NAME Butyrospermum Parkii Butter

A fully traceable, low-spreading, liquid shea butter, Lipex SheaLiquid TR can be used at higher levels than standard solid refined shea butters without the risk of crystallization. It offers good stability and is suitable for low energy processing.

Appearance: slightly yellow, cloudy liquid

Unsaponifiables: 8%

Linoleic acid: 8–10%

Slip melting point: 16°C

Cloud point: 8

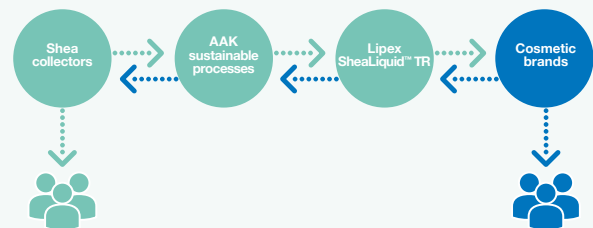

Typical use concentrations:

1–5% for skin care lotions and creams, 2–10% for lip care and lipsticks, 0.5–4% for hair care

Key features and benefits

- Fully traceable supply chain that can be mapped all the way from the women in West Africa engaged with our Kolo Nafaso direct shea sourcing program through to production in Sweden.
- Does not require heating in the manufacturing step, saving both time and energy compared to solid shea butters.
- Triterpene content in unsaponifiables and linoleic acid delivers skin moisturizing and soothing benefits.
- Liquid, pumpable format means Lipex SheaLiquid TR can be incorporated easily into formulations.

Liquid SheaLiquid™ TR traceable all the way from collection point to cosmetic formulation
