# Lipex SheaTris™

**Recommended applications:** skin care and dermo-cosmetics

**INCI NAME** Butyrospermum Parkii Butter Extract

Based on highly concentrated shea butter triterpene esters obtained through our advanced processing methods, Lipex SheaTris is a bioactive ingredient with documented skin protecting and anti-aging benefits. It delivers high functionality at levels as low as 0.5% and is suitable for all types of skin care formulations, including ultra-light textures.

**Appearance:** Thick, yellowish paste

**Triterpene content:** 50–65%

**Slip melting point:** 50°C

## Typical use concentrations: 0.5–2% for skin care

### Key features and benefits

- Contains a high content of triterpene esters renowned for skin protecting, soothing and revitalizing properties.
- Shown in studies to:
  - strengthen the skin barrier function to improve moisture retention and protect against environmental aggressors
  - protect skin against collagen degrading enzymes
  - reduce the activity of pro-inflammatory cytokines linked to premature aging
- The triterpenes in Lipex SheaTris also have the potential to reduce skin damage caused by urban pollution. Tests confirm Lipex SheaTris to be effective at protecting skin against different types of inflammatory mechanisms caused by exposure to urban dust, chemical and UV stress.

### Lipex SheaTris™ protects skin collagen structures and fights premature skin aging

#### Reduction of collagenase activity

#### MMP-3 gene expression
