

IntegriBUTTER Mango Fruit Blend

A nutrient packed powerhouse to help nourish, hydrate and moisturize skin, hair and lips.

IntegriBUTTER Mango Fruit Blend

INCI Name: Mangifera Indica (Mango) Seed Butter, Olea Europaea (Olive) Fruit Butter, Carica Papaya Seed Oil, Prunus Domestica Seed Oil

Use Level: 2 - 20% for lotions and creams; 3 - 15% for bar soaps; 1 - 6% for hair conditioners; 3 - 100% for body and lip balms; 1 - 5% for sun care

IntegriBUTTER Mango Fruit Blend is a unique complex of tropical Mango Seed Butter blended with Papaya Seed Oil, Australian Olive Oil, and French Plum Oil. The combination is a powerhouse of antioxidants, beta carotene, flavonoids, lutein, oleic acid, polyphenols, potassium and vitamins C and E designed to nourish, fortify and revitalize hair and skin.

IntegriBUTTER Mango is a butter created from the oil extracted from the seed kernels of the mango fruit. Mangoes are grown in several sub-tropical regions with production led by India at 45% of the total global supply. IntegriBUTTER Mango contains a high content of stearic acid, which is a similar property of cocoa butter. It has superior lubricity and delivers excellent moisturization and emollient benefits to all skin and hair care products. It moisturizes dry skin, helps to restore skin elasticity, protects against UV rays, reduces cellular degeneration, and inhibits the formation of fine lines and wrinkles.

IntegriLIPID Papaya Seed Oil Refined is a fruit oil extracted from the seed kernels of the Papaya fruit and works as a natural exfoliator and powerful anti-aging ingredient. Papaya Seed Oil is rich in essential fatty acids that deeply penetrate to effectively moisturize skin and hair. Studies have shown that the papain enzyme promotes collagen production and protects skin elasticity, to help reduce the appearance of fine line and wrinkles. It's superior conditioning and moisturizing properties are excellent for creams, lotions, hair and facial oils, body butters and lip balms.

IntegriBUTTER Mango Fruit Blend

IntegriLIPID French Plum Oil is an exotic oil extracted from the seed kernels of fresh, non-genetically modified plums that are harvested in the southwest of France. It is an oleic oil with high linoleic acid content that is rich in antioxidant tocopherols. The kernels are collected, washed, and carefully dried prior to processing in a controlled atmosphere at 60° C to prevent microbial contamination. The kernels are then mechanically crushed without any solvent to extract the oil. IntegriLIPID French Plum Oil features an elegant emollient profile that leaves the skin with a light, non-greasy after-feel and is an excellent choice for superior antioxidant and hair and skin conditioning benefits. It can also be used as a natural alternative to synthetic fragrances due to its pleasant, light almond scent.

IntegriLIPID Olive Oil Extra Virgin

Nutrient-Rich Skin Antioxidant and Moisturizer

IntegriLIPID Olive Oil Extra Virgin is an oil extracted from ripe, organic olives from Australia that are ground to a paste and mixed with water. The mixture is then centrifuged to separate the oil which has a shelf life of approximately two years. The oil is abundant in antioxidants, nutrients, vitamins, and anti-inflammatory triterpenes to repair and rejuvenate skin health.

IntegriLIPID Olive Oil Extra Virgin is also rich in Vitamins A, E, D and K and works as an antioxidant powerhouse to counter oxidative stress caused by UV and free radical damage. The oil features a high fatty acid profile that includes squalene, oleic, and palmitic acids which deliver intense moisture, and are biomimetic to the fatty acid profile of human skin.

Protection Against Split Ends and Breakage

IntegriLIPID Olive Oil Extra Virgin also nourishes and hydrates dry, brittle hair to tame frizz and to prevent breakage and split ends. The oil contains a high percentage of Oleic acid, and the nonpolar end of the oleic acid molecule is hydrophobic. Thus, the oil forms a thin layer of moisture that protects the hair from root to tip. It works as a lubricant that reduces friction between individual strands to strengthen, thicken and revive the hair's natural shine. It is a key essential for the overall health of the hair and scalp.

At Integrity Ingredients Corporation (IIC), we are **Advancing the “Beauty with a Conscience” Movement** in our efforts to globally commercialize highly efficacious technologies derived from indigenous cultures who are in desperate socio-economic need. We actively seek natural, innovative ingredients that feature a reduced carbon footprint and proven, sustainable traceability from farm-to-formula. *Discover more at <https://integrityingredientscorp.com/sustainability/>.*
